## Properties

Shielding thin **blanket made from Steel-Gray** for HF+LF shielding. Easy and quick protection on the **couch**, in the **bed**, on **holiday**, on **business trips** or while **playing console** games.

Steel-Gray is a compact woven **cotton/polyester/stainless-steel** fabric. Steel-Gray contains very fine stainless steel threads, that feels on the skin like a little scratchy woolen sweater. But on the couch with clothing or in the bed with a pyjama nothing scratches. **Nevertheless we use this fabric, because its very wash-resistant and much more durable than all other fabrics! Please be aware that hygiene products like shielding clothes, blankets, bedding or sleeping bags cannot be returned or exchanged in size when used.**

We have already invested in our **own professional EMV laboratory** years ago. We not only use it to create our laboratory screening reports but also to check each batch daily. Additionally, we have all our products checked by an **independent, well-respected expert**. Double checked for twice the safety. **Please find the reports above at the downloads.**
